<b>Business field</b>	Body dimension and body shape analyses, avatars, 3D body scanning, serial measurement surveys	
<b>Reference projects (representative selection)</b>	<p><b>Nairo Quintana – Taking the lead with high-tech</b> A digital twin of the cyclist was used for tests in the wind tunnel – and the result was tailor-made racing clothing with the highest level of aerodynamics. The perfect interplay of body, clothing and equipment creates the best foundations for sporting success.</p> <p><b>UVEX - all of Asia in CAD at the push of a button</b> Representative head measurements of the Asian population made the adaptation of safety glasses for Asia possible.</p> <p><b>Peter Hahn – body measurements as a strategic factor</b> The company's own brand strategy is based on a clear concept of sizing &amp; fitting and this was precisely tailored to the target group. Ideally-dimensioned fashion manikins (tailors' busts) help suppliers in Asia to maintain their high sizing &amp; fitting standards thousands of miles away.</p> <p><b>BRAX – Develop faster with 3D</b> Your own house model is now available as a 3D body scan 24/7 if required – and is also ready for use at various locations in the company.</p> <p><b>LEWETEX - lying comfortably with 3D</b> The company offers a unique mattress concept: Each mattress is customized to the individual needs of the customer. The AVALYTICIS Portal provides all the necessary information about the target group and supports the definition of the relevant primary measures and body characteristics.</p>
